“ *My granny was one of the kindest and most loving people in the world. I have so many memories of her and my gramps from my childhood which I will cherish for ever. There is one in particular that will always put a smile on my face though. Anyone who knew my grandma and gramps knew that he was a jokester out of the two of them, but on this particular occasion granny surprised me. We were up in the mountains and it was winter so there was snow on the ground and we were driving around looking for a good spot to get out and play. Gramps stopped so us girls could burn off a little of our energy and there happened to be a hill that my sisters and myself were playing on and my granny out of no where popped off with the statement that if they wanted to go skiing they could use my shoes. It was too funny. I love and miss you more than you will ever know granny! Give gramps a hug for me!*
